Abercrombie, Nicholas [WorldCat Identities]

To the Editors:.. William Dalrymple's review of recent books on the British Empire ["Plain Tales from British India," NYR, April 26] finds fault with my book, The Scandal of Empire, for not being about either how Indians viewed the British or how closely connected Indians and Britons were in the eighteenth century. While I have written a great deal elsewhere about these questions (based on ...

Broadside of St. Nicholas, distributed to New-York Historical Society members, 1810 (New-York Historical Society Library) Saint Nicholas in New York Following the American Revolution, interest in the Dutch colonial history of New York surged, and Saint Nicholas became a favorite anti-British symbol of New York Historical Society founder, John ...

The third edition of the highly-acclaimed Contemporary British Society is the only textbook to provide comprehensive coverage of all aspects of the social structure of modern Britain. Completely revised and updated, this new edition employs the very latest statistical information and empirical studies, and examines all the new arguments and debates concerning modern British society. Separate chapters explore the major areas of modern life in Britain - economic organization, employment, patterns of inequality, class, gender, ethnicity, family and households, education, health, media, deviance and politics. New to this edition are chapters on globalization, associations, and leisure. The emphasis throughout the book is on an accessible, user-friendly, and non-technical approach. It is written in a jargon-free and approachable style; there is extensive cross-referencing and frequent and clear summarizing of arguments; and numerous photographs, diagrams, graphs, drawings and cartoons complement and illuminate the text. Contemporary British Society is written for students of introductory sociology whether they are taking 'A' level or are in the first year of an undergraduate course in a higher education institution. It will also be useful for those taking courses in other subjects, such as social policy, health and town planning, which demand knowledge of particular aspects of British society. First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

As a radical critique of theoretical sociological orthodoxy, The Dominant Ideology Thesis has generated controversy since first publication. It has also been widely accepted, however, as a major critical appraisal of one central theoretical concern within modern Marxism and an important contribution to the current debate about the functions of ideology in social life.

In this sequel to their acclaimed The Dominant Ideology Thesis, the authors develop their analysis of the social and cultural underpinnings of modern capitalism. They confront a central assumption of western culture: namely, that the individual is sovereign, and that capitalism above all other economic forms depends on individualism. These ideas have an unbroken history from Alexis de Tocqueville to Milton Friedman. The paradox of the modern world is that the moral emphasis on the individual is contradicted by the actual organization of economy and society. The authors suggest that individualism and capitalism have no enduring or necessary relationship. Their linkage is entirely accidental and was confined to one particular historical period in the West. Against the background of what they term the Discovery of the Individual, the authors show how individualism gave capitalism a particular shape, and capitalism in turn highlighted the possessive features of the individual. Oriental capitalism and late capitalism in the West bear no particular relationship to individualism; indeed, they flourish best in the absence of individualistic culture. Collectivism increasingly dominates both economic and social life. These issues once informed the sociological enterprise, but have not been systematically addressed in recent times. This book revives the classical tradition of the historical and comparative analysis of culture and economy in capitalist society, in the context of the late twentieth-century world.

A Companion to Contemporary Britain covers the key themes and debates of 20th-century history from the outbreak of the Second World War to the end of the century. Assesses the impact of the Second World War Looks at Britain's role in the wider world, including the legacy of Empire, Britain's 'special relationship' with the United States, and integration with continental Europe Explores cultural issues, such as class consciousness, immigration and race relations, changing gender roles, and the impact of the mass media Covers domestic politics and the economy Introduces the varied perspectives dominating historical writing on this period Identifies the key issues which are likely to fuel future debate

`This book is worth reading for a number of reasons. It is the first introductory work of critical audience research that suggests how we can study the connection of media consumption in general with every day life, and it also goes beyond its competitors in showing how postmodern thinking can help us in the analysis of a "whole way of life" - Journal of Communication Audiences are problematic and the study of audiences has represented a key site of activity in the social sciences and humanities. Offering a timely review of the past 50 years of theoretical and methodological debate Audiences argues the case for a paradigmatic shift in audience research. This shift, argue the authors, is necessitated by the emergence of the `diffused audience'. Audience experience can no longer be simply classified as `simple' or `mass', for in modern advanced capitalist societies, people are members of an audience all the time. Being a member of an audience is no longer an exceptional event, nor even an everyday event, rather it is constitutive of everyday life. This book offers an invaluable review of the literature and a new point of departure for audience research.

This exciting new reader brings together some of the best recent sociological writing on British society. The volume features carefully selected extracts from books and journals,

which have been chosen for the high quality of their sociological analysis and their relevance to understanding social change. Thematically organized, the volume gives wide coverage to a range of key topics in sociology, including globalization, class and inequality, gender, ethnicity, the media, leisure and consumption. It also provides students with an interesting introduction to a variety of social science research methods, from ethnographies and in-depth interviews to observation and surveys. Most of the chapters are based on recent empirical research, and therefore capture in detail some of the more distinctive features of life in Britain at the turn of the millennium. Read alone, or in conjunction with the third edition of the best-selling textbook, Contemporary British Society, this book provides the newcomer to sociology with a fascinating introduction to social life in Britain and a taste of the excitement and complexity of original research and analysis.

Contemporary Britain is the latest book from the bestselling author of British Civilization and American Civilization. It is a wide-ranging collection of sources concerning every important aspect of life in Britain today, from national identity to moral panics and offers an accurate snapshot of life in Britain at the beginning of the twenty-first century. Topics covered include: * Britain's role in world affairs * British national identity * constitutional reform within Britain * social institutions including the NHS * political parties * Morality and religion. Lively and accessible Contemporary Britain is the essential companion for anyone studying current British civilization.
