Harrison M400, M500, and M390 lathes for sale. Find CNC, center and vertical turret lathes on Machinio.

Used Harrison Lathes for sale | Machinio

Harrison M500 Lathe turns slight taper I have known for a while that a Harrison M500 gap bed lathe I use at work turns a slight taper. From around 3 inches from the chuck jaws, up to almost the against the chuck jaws, the machine turns a taper of 0.02mm. The workpiece diameter gets smaller as I get closer to the chuck.

Harrison M500 Lathe turns slight taper - Practical Machinist

HARRISON THE LATHE: T S Harrison & Sons was founded in 1898 and in the year 1900 built their first Harrison Lathe in Yorkshire, England. Harrison enjoys a long lathe history that spans over 110 years. To date there exists a North American Machine population of nearly 20,000 lathes and 140,000 machines throughout the world.

Harrison Center Lathe

M500 VS330 (Export Model "AA") Older Harrison Models M300 Photo Essay First manufactured in 1971, and still in production 46 years later to meet a continuous demand for a rugged, simple-to-operate and reliable centre lathe, the M300 is a very compact machine yet, with a centre height of 167 mm (6 9/16 ") and a capacity between centres of either ...

Harrison M300 & T300 lathes

Harrison 15" Lathe Electrical problem I recently purchased a 15" Harrison lathe which had been in storage for a few years. The lathe has a 220V 2 speed 3 phase motor. Motor speed and direction is controlled with a four position rotary switch. When I first powered it up, I found out that the control voltage transformer wasn't working (it looks ...
