Readers can relive the true golden age of high-performance classic speedboats in this book that covers these mighty wooden-hulled craft from around World War I until just before the second World War. This was an era when speed was still a new plaything, and speedboats and aircraft were raced as passionately as were automobiles; when massive mahogany speedboats powered by engines from suppliers such as Rolls-Royce competed fiercely against rivals from around the world. Classic speedboat enthusiasts will relish the cutaway drawings of these craft, as well as the choice archival photography and the modern color photography of these now-impeccably restored beauties.

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in Roman Holiday and Sting's stylish companion in Quadrophenia and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Early chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own \u2014 from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.
